● 安装提示

Installation tips

- 安装①胶套时确保胶套套到底部避免脱落

When installing① sleeve,make sure that the sleeve is covered to the bottom to avoid falling off.

- 整车摆正后，先将展架两胶着地再将展架倾斜到一定角度（如图3所示），然后把⑤前轮固定轴穿过，确认④胶垫在展架和前减震器之间，避免穿前轮固定轴时轴套刮花前减震器，后把③旋10圈以后，把整车沿两胶着地处往前一推展架回正，即安装已完成。

After the vehicle is straightened, first put the exhibiting stand together and then tilt it to a certain angle(as shown in Figure 3), Then put the ⑤ front wheel fixed shaft through,make sure the ④ rubber pad is between the display rack and front shock absorber,Avoid wearing the front wheel fixed shaft sleeve scraping shock absorber,after the ③ turn 10 laps,the vehicle along the two glued in the forward push back to the exhibition frame,that is,the installation has been completed.
